

Athenia II

(Split Scored)

Typical 8" Size

Location & Size Availability

Unit Properties:

- Units exceed ASTM C-90. Higher strength units allow for more efficient structural designs.
- Recommend all units be manufactured with proper dose of integral admixture for water repellency and test units to ensure performance.
- All units are shipped on pallets. The pallets are wrapped and labeled to ensure units are clean and dry and to reduce potential chipping.

Installation Tips:

- Vertical score should be pointed on exterior to eliminate raked joints.
- A mortar match is critical when manufactured score is left natural.
