

Castlerock

(Offset Split)

Castlerock: Typical 8" Size. Provides four different faces in each pair of block.

Unit Properties:

- Units exceed ASTM C-90. Higher strength units allow for more efficient structural designs.
- Recommend all units be manufactured with proper dose of integral admixture for water repellency and test units to ensure performance.
- All units are shipped on pallets. The pallets are wrapped and labeled to ensure units are clean and dry and to reduce potential chippage.

Installation Tips:

- Well tooled, compressed mortar joints are important to a weather-tight wall.
- Illustrate workmanship on a sample panel.
